ALL THE DATA YOU NEED

Stay in control of your striping operation with the DL-18, your truck's command center. Enable data logging on your truck, giving you the keys to the most powerful tools on the market.

The LLAMA is the ultimate add-on to the DL-18, bringing more control to your fingertips. Track your striping operation closer than ever before, ensuring you meet job specifications and keep material costs down.

SKIP-LINE LINE PILOT XP

ADJUST CROSS HAIR LINES ON THE FLY

The Skip-Line Line Pilot XP makes it easy to adjust and fine-tune cross hair lines on the DL-18 while driving. Operators can use toggles to adjust on-screen line positioning. Adjust location, tilt, and thickness of existing cross hair lines on the DL-18 display.

FUNCTIONALITY

- 1 Move Left/Right
- 2 Move Up/Down
- 3 Increase/Decrease Line Width
- 4 Rotate Clockwise/Counterclockwise
- 5 Line Select (scroll through available lines)
