STEP 1

**Go to Spec-Rite Online**

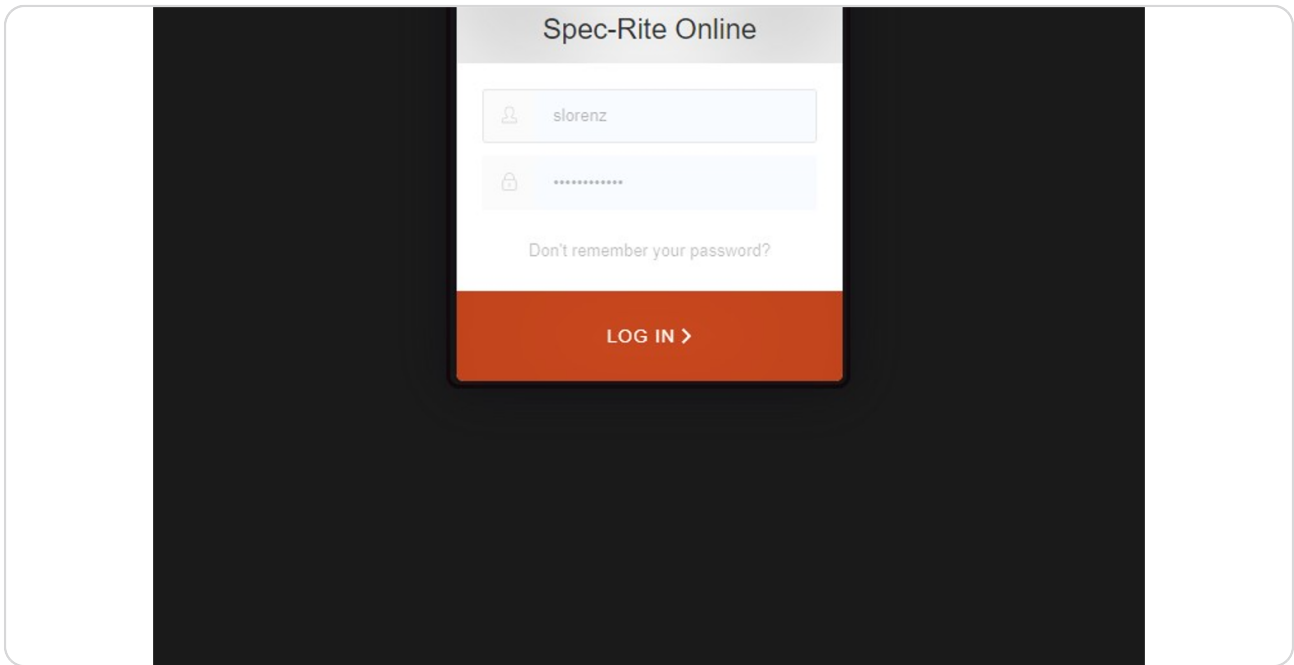

STEP 2

**Click on LOGIN**

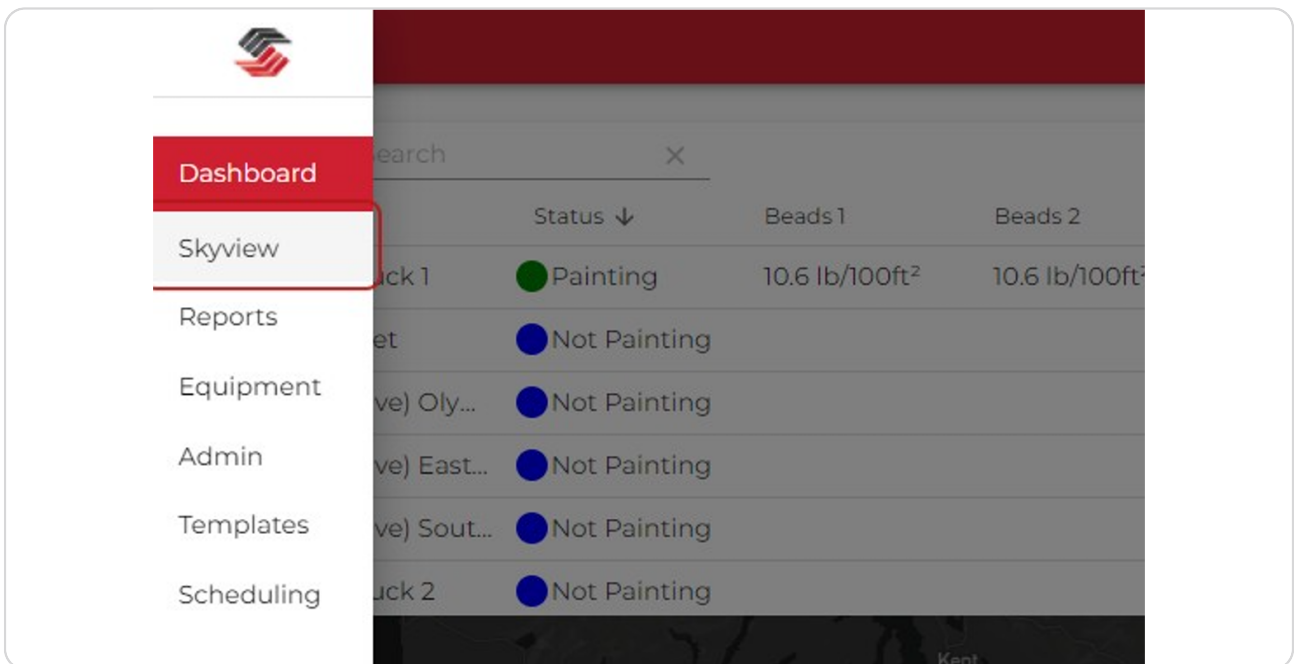

STEP 3

Click on LOG IN

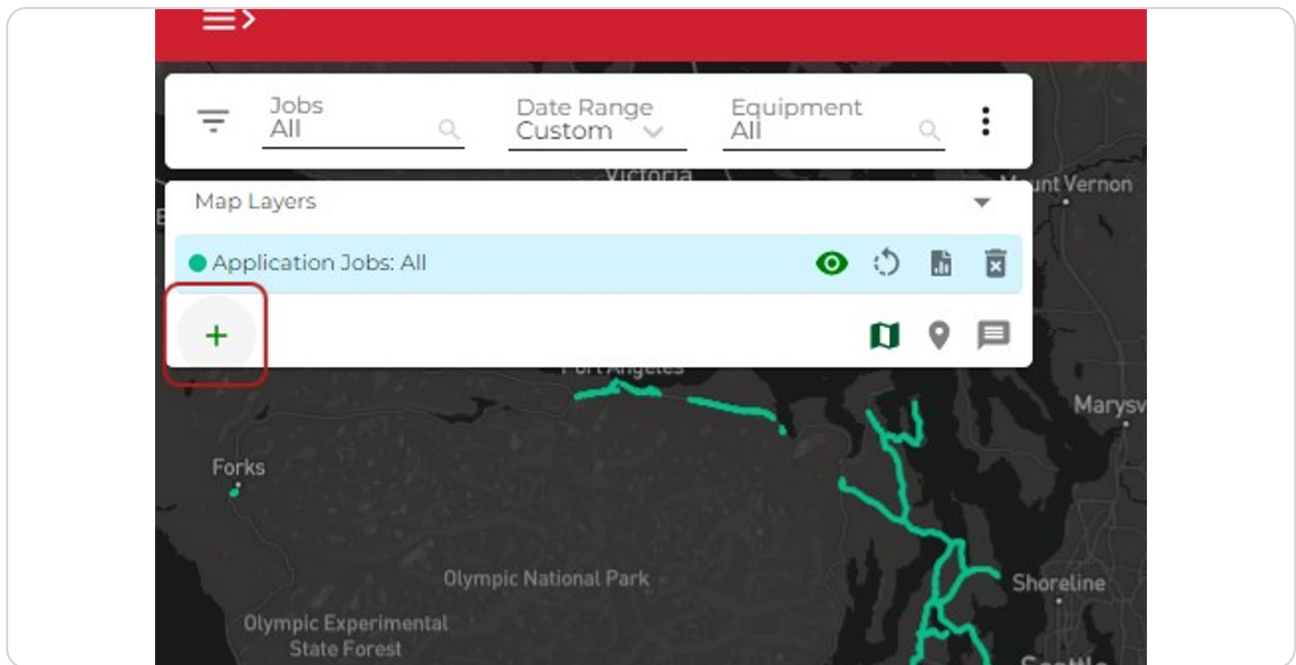

STEP 4

Click on Skyview

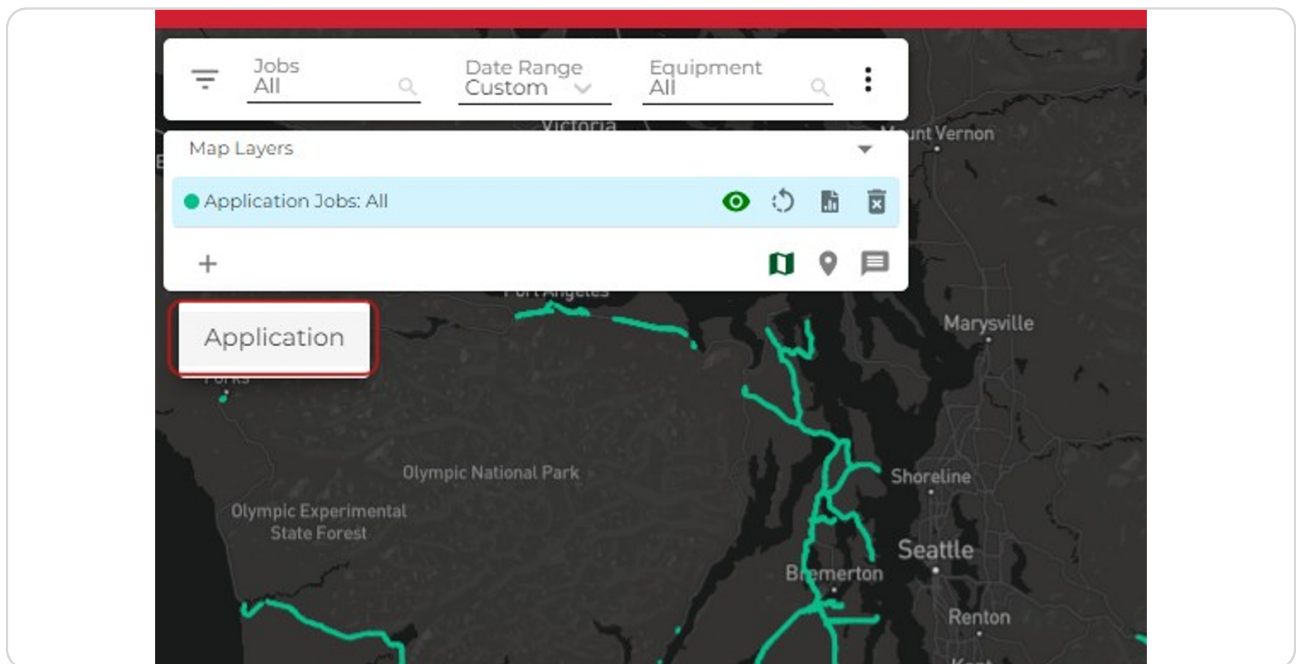

STEP 5

### Click on Create Layer

STEP 6

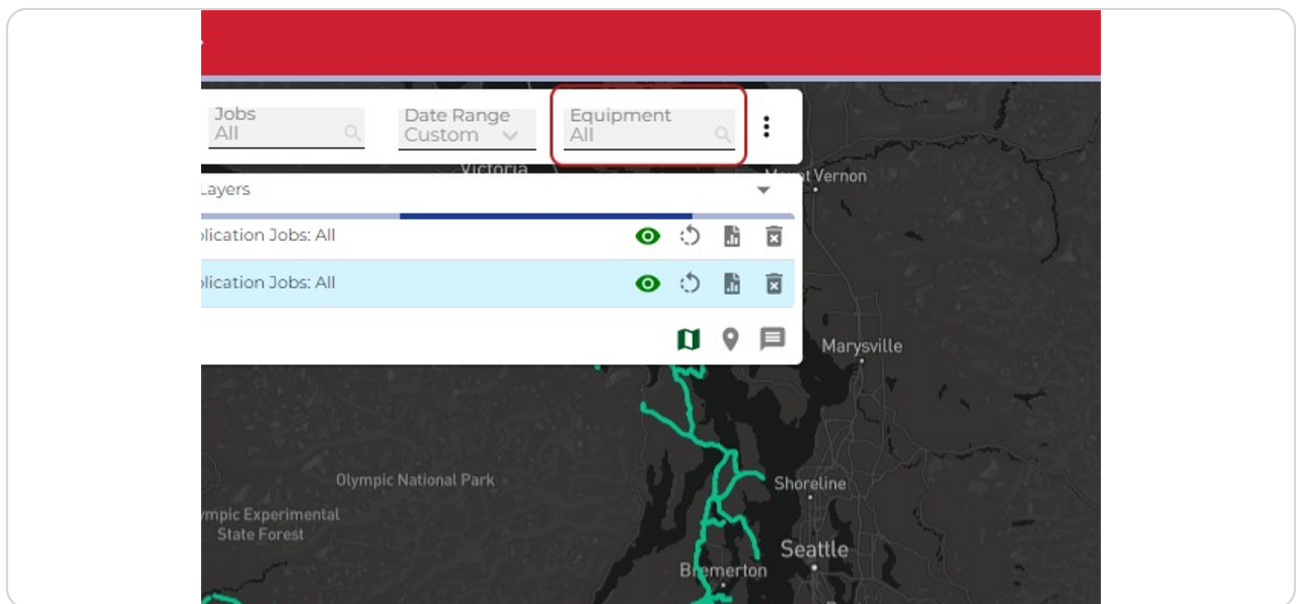

### Click on Application

## STEP 7

### Click on Equipment, Jobs or Date Range

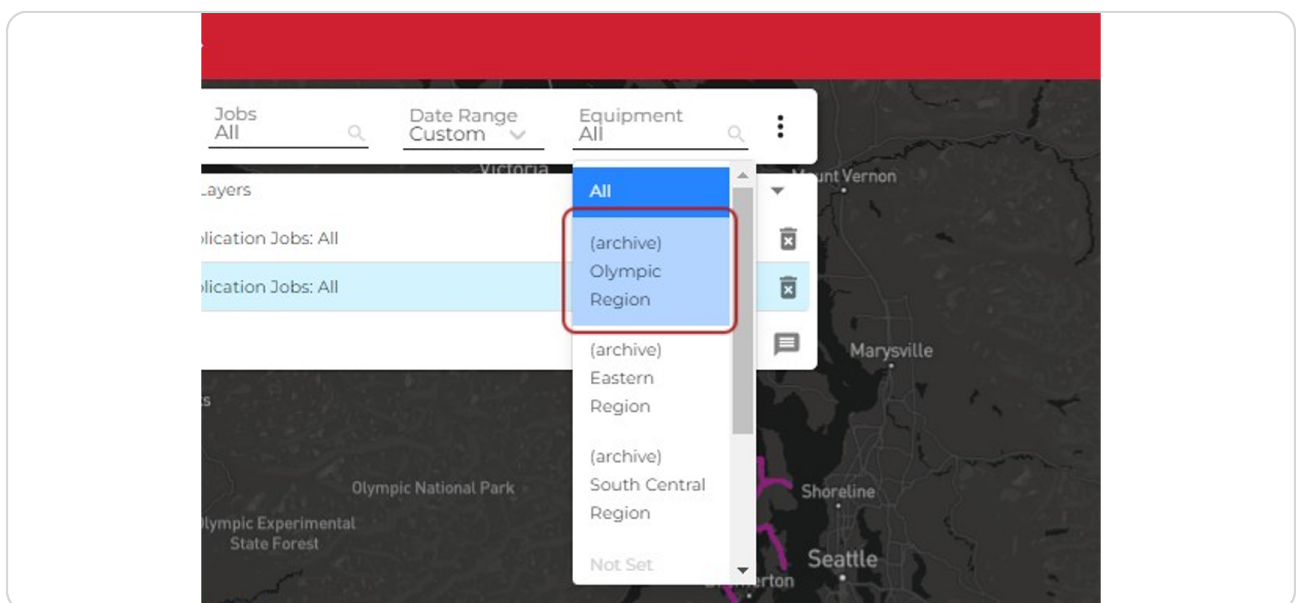

From here you can specify what you would like to see in that layer by choosing a specific piece of equipment, job, date range or mix of all three filters.

## STEP 8

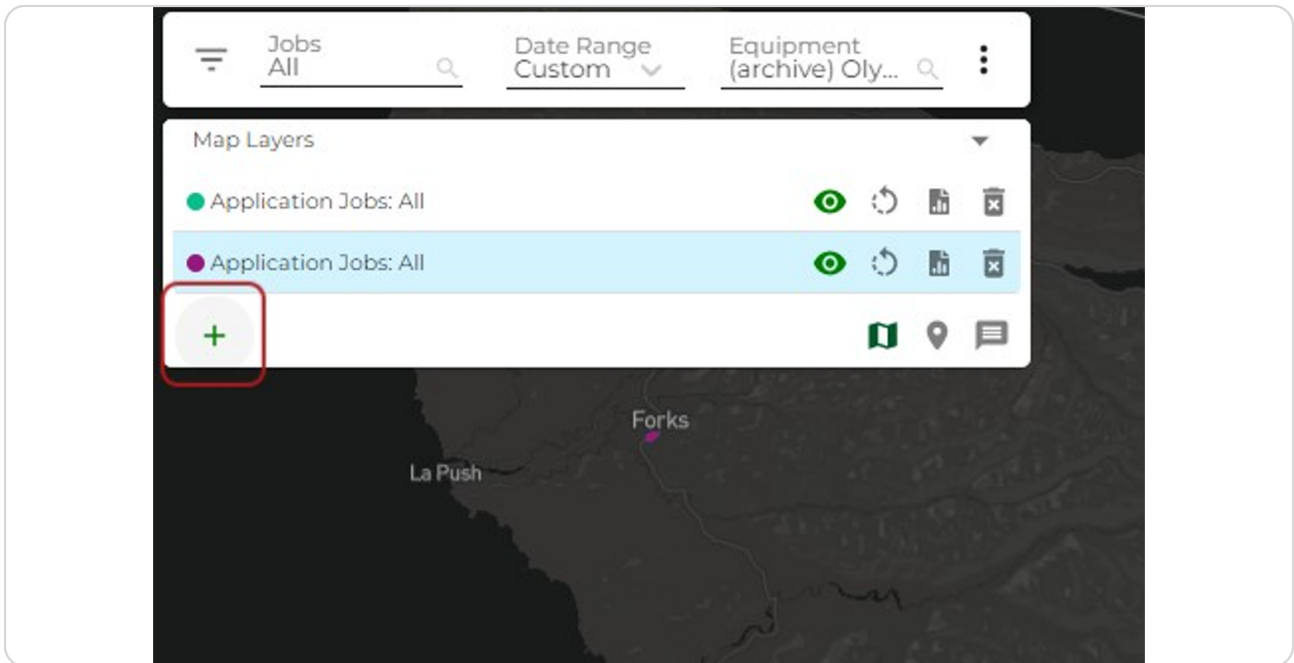

### Select parameters for layer

In this example we are filtering all jobs by one piece of equipment.

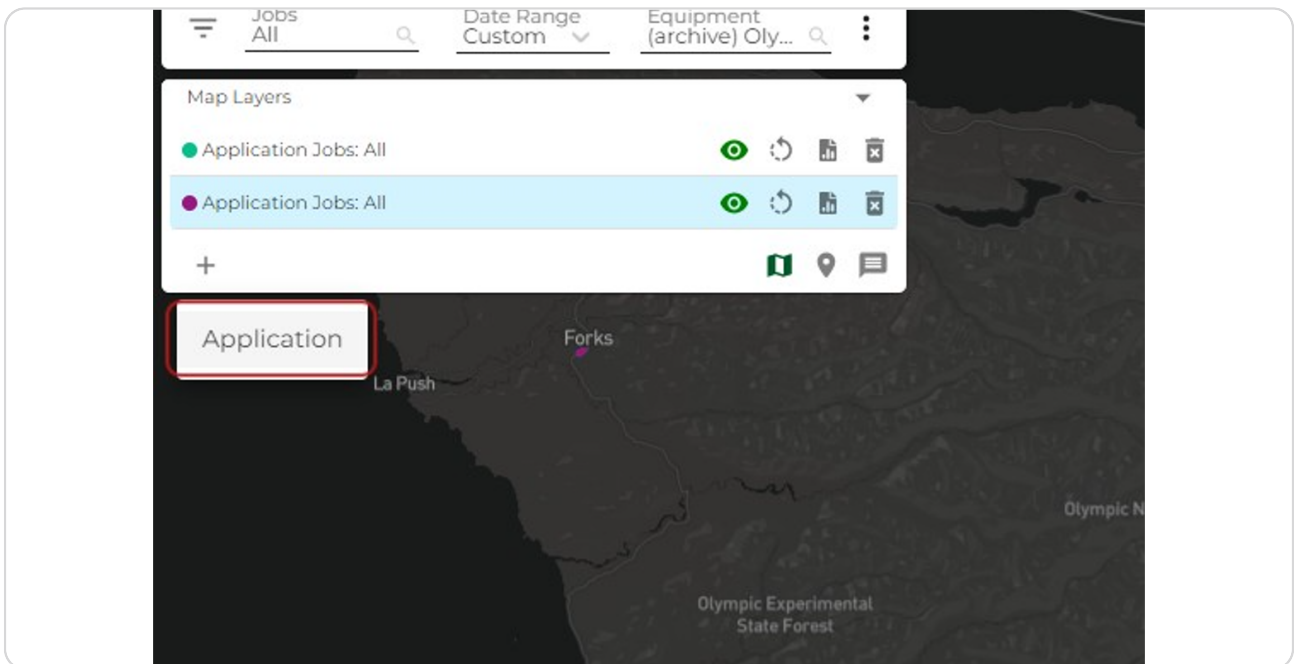

STEP 9

To add another layer, click on Create Layer

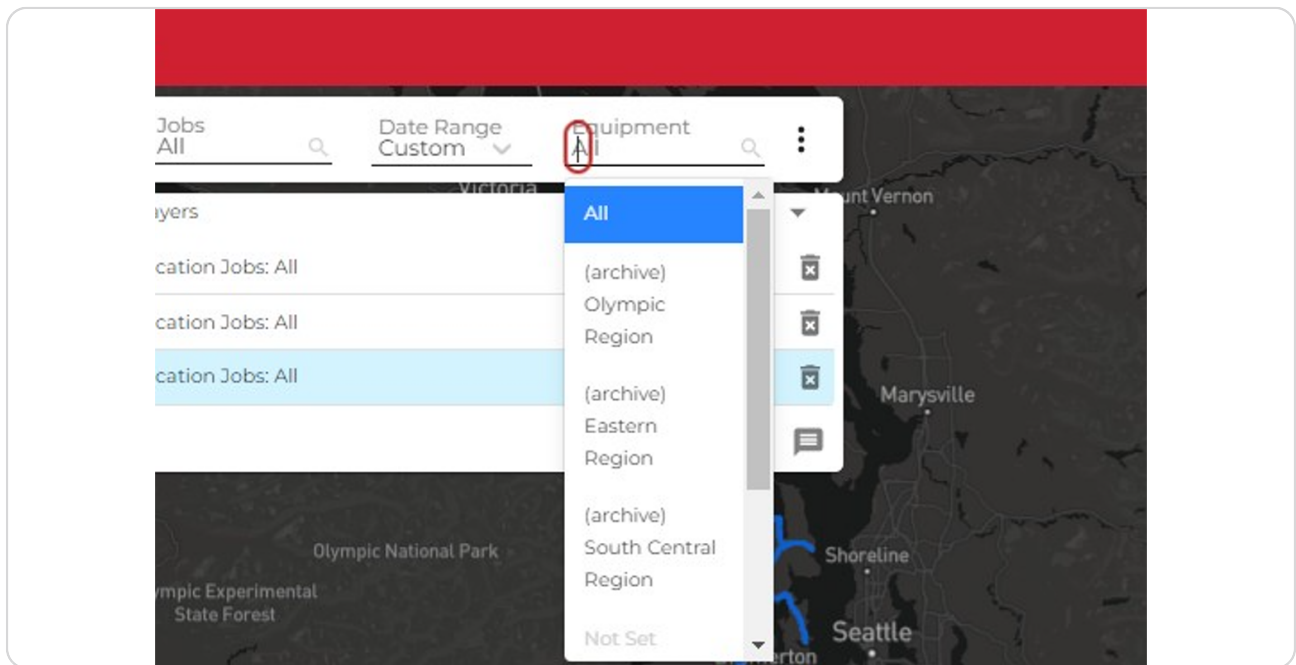

STEP 10

Click on Application

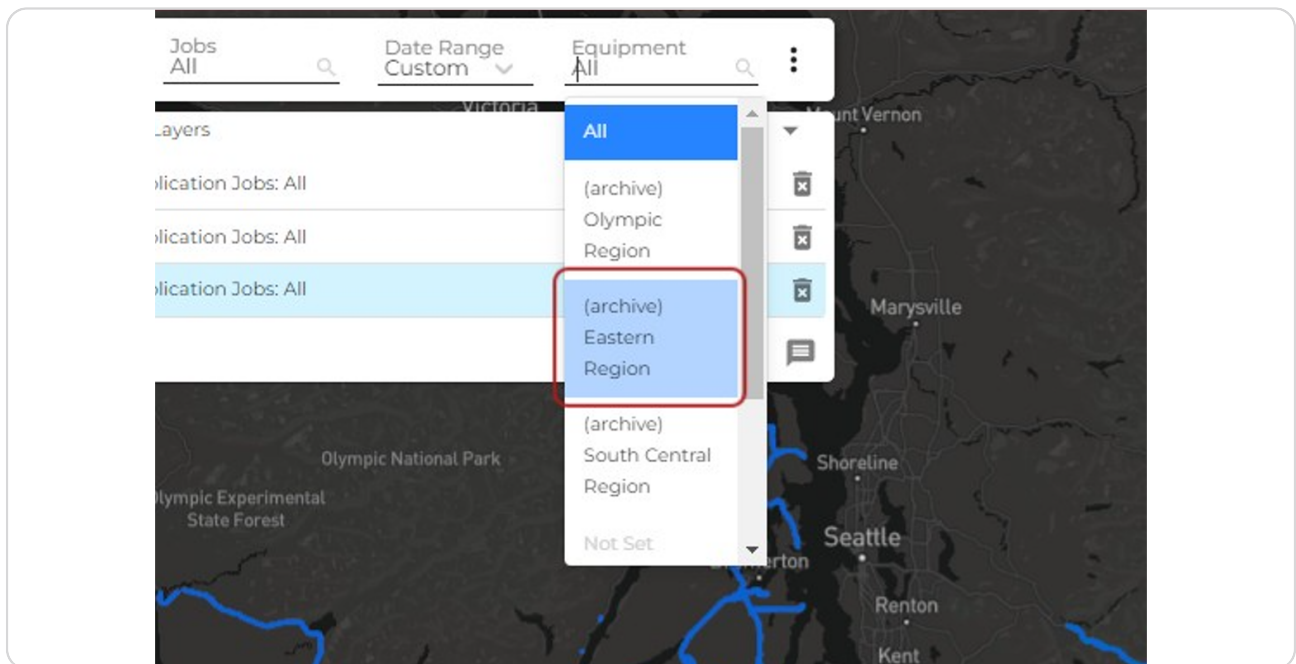

STEP 11

Click on Equipment, Jobs or Date Range

STEP 12

Select parameters for layer

STEP 13

This is what multiple layers look like on one map.
