

SAVE TIME WITH OUR NEW TEMPLATES AND SCHEDULING FEATURES!

CONTROL EXACTLY HOW YOU WANT YOUR DATA ORGANIZED AND DELIVERED.

Create Custom Templates

Organize your data by rows using distance, pattern changes, time, line type, or entry fields.

Organize by columns with information and job metrics such as job names, material, batch, truck information, speed and distance, temperatures, total painting time, and more.

How-To Video 

Schedule Reports

- Name your automated report
- Categorize it by color
- Set frequency and duration
- Choose a report template
- Choose work to include in report
- Choose how, where, and when to send report
- Choose between a link or attachment (PDF, XLS, KML, Shapefile, and/or GeoJSON)
